

STEP-BY-STEP GUIDE: Online Banking

How to activate a new card

Step 1: Locate your card

Log in to Online Banking and click on the MANAGE CARDS widget in the menu on the left. If you don't see the MANAGE CARDS widget, you can find it by clicking the MORE option. Next, locate your new card and click on the card image. Any card that has not yet been activated should have a green banner over it as seen below.

Step 2: Navigate to activation menu

You'll see a tab labeled Activate Your New Card. Click the arrow on the right to open the dropdown menu and enter the CVC (card verification code) to activate the card.

The screenshot shows the 'Platinum Mastercard' account page. On the left, there is a card image with the text 'ACTIVATION REQUIRED' and 'Credit Limit: \$6,000.00'. To the right of the card image is a table of account details:

Nickname	Platinum MasterCard
Available Credit	\$2,228.00
Statement balance	\$3,746.98
Total Credit Limit	\$6,000.00
Payment Due Date	08/09/18
Minimum Payment Due	\$420.51

On the far right, the current balance is displayed as **\$3,771.98**. Below this is a usage bar showing 63% usage. At the bottom of the page, a button labeled 'Activate Your New Card' with a right-pointing arrow is highlighted with a red rectangular box.

The 'Activate Your New Card' modal form contains the following elements:

- Card ends in *****
- Input field: Enter your new card's CVC number (with an information icon)
- Text box: If you experience any trouble activating your new card, please call us at 855.855.8805 or send us a secure message.
- Buttons: Cancel and Submit

Step 3: Confirm Activation

After you click Submit, a success message should appear, confirming your card's activation.

The 'Success' message box contains the following text:

Congratulations on activating your card. It's ready to be used. Enjoy exploring all the benefits it has to offer. If you have any questions, please send us a secure message or call 855.855.8805.

An 'OK' button is located at the bottom right of the message box.
