

This Season of Giving, First Tech employees, members and friends came together to support families in need, by partnering with a variety of community organizations. These vital partners provide resources for children and families to build foundations that let our communities thrive. We've contributed 6,250 volunteer hours at more than 82 volunteer events during this Season of Giving. We're honored to come together with these impactful groups, during this Season of Giving and beyond. Here are the organizations that we have supported together.
