SPOTLIGHT ON TECH

FIRST TECH BEYOND™

Monthly showcase celebrating the contributions of innovative tech companies and tech-related nonprofits.

First Tech federal credit union

PROJECT LEDO

FOUNDED: 2019

HEADQUARTERS: Portland, Oregon

MISSION: To provide access to science and technology programs for children from black, indigenous, people of color and low-income communities.
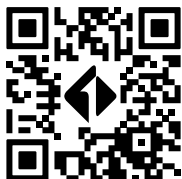

INSPIRING CREATIVITY
ENABLING REPRESENTATION
EMPOWERING STEM LEADERS

Project LEDO believes that every child should have the opportunity to learn and explore science, technology, engineering and mathematics programs (STEM) in a fun and engaging way, regardless of their background or socio-economic status. By offering these hands-on programs, the non-profit group aims to promote equity and diversity in STEM fields and inspire the next generation of innovators and leaders.

"**In our pursuit of supporting children, we want to give them every opportunity and ensure they are equipped for a brighter future. Sometimes it only takes one person to believe in you to change the fate of your journey.**"
Fidel Ferrer, President & Founder, Project LEDO
